

Warranties that have you covered

Warranties are only as strong as the company that stands behind them. From materials to installation, no one offers owners more responsive and reliable warranty protection than Drexel Metals. Our long-standing relationships with our supply chain partners protect customers and owners by ensuring materials of consistently high quality. As part of

our Weathertight Warranty Program, Drexel Metals takes the additional steps to understand each potential application and recognizes the need to educate and support our certified installers. As a result of our attention to detail, Drexel Metals Roof Systems perform optimally in each unique installed environment.

Paint and Substrate Warranties

- » **35 Year Non Pro-rated Kynar® Paint Warranty with a 20 year Galvalume® Substrate Warranty**
- » **35 Year Non Pro-rated Kynar® Paint and 25 year Aluminum Substrate Warranty**
- » **20 Year Non Pro-rated International Kynar® Paint Warranty**
- » **25 Year Non Pro-rated Drexlume™ (Acrylic Coated Galvalume®) Warranty**

Please contact your Drexel Metals representative when installing our products in salt environments. In order for our Galvalume warranty to be effective in environments with a salt atmosphere or relative to bodies of salt water the following criteria must be adhered to:

- » Application in proximity to a coastline with surf, the distance from the coast must be at a minimum of 2,800 feet.
- » Application in proximity to a large Bay, the distance must be at a minimum of 1,200 feet.

Drexel Metals offers site-specific warranties as well as care and maintenance guidelines for the post-installation care of your metal roof. Contact your Drexel Metals representative for more information.

Weathertight Warranty Program

- » **Weather tight warranties that truly protect the owner.**
Three separate inspections during installation are documented with written reports and photos. Drexel Weathertight Warranties with no dollar limit are available and all Drexel Metals warranties are fully transferable to a future owner.
- » **Weather tight warranties that are diligent.**
We are disciplined yet flexible in working along with the architect, general contractor and roofing contractor to ensure a peace of mind for the owner. Drexel Certified Installers undergo rigorous reference checks, on-the-roof training and inspections of previous jobs before being allowed to install Drexel Metal Roofing Systems.
- » **Weather tight warranties that fit your budget.**
Our Single Source Weathertight Warranties are available in many different options to fit your budget:
 - 5 year Weathertight Warranty
 - 10 year Weathertight Warranty including no dollar limit warranties
 - 15 year Weathertight Warranty including no dollar limit warranties
 - 20 year Weathertight Warranty including no dollar limit warranties
